

TANEX IND

Despite the quick pace of today's society, a resurgence of the turn of the century's carefully detailed craftsmanship, is bringing us back to the warm reflections of our past.

Tanex Industries Ltd. makes available a wide variety of products for renovating, restoring or building Victorian, Craftsman and other 19th and 20th century homes.

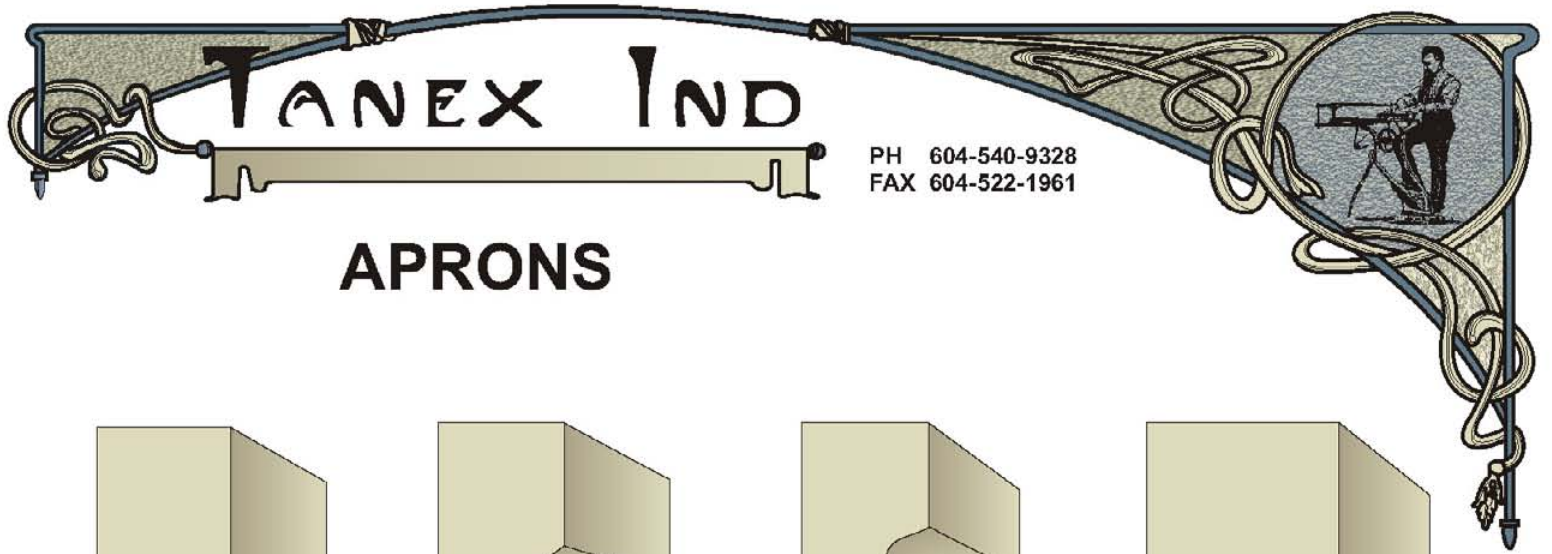

Mouldings are one of the most economical means to enhance a room. Rarely noticed unless it is really elaborate, their absence in a period setting is intuitively felt. Gracefully shaped pieces of trim adorning the walls and ceilings, in the form of casings, crowns, baseboards, picture rails and chair rails, defined space, giving a finished look around windows and doors. Classic and traditional styles cannot be dated and never go out of style.....TIMELESS.

Different ambiances can be created with combinations of mouldings, from the warmth and comfort of Grandma's home, to a simple elegance, to the grandness of highly ornate mansions.

Many of our wood and composite mouldings range from the 20's Art Deco and Art Nouveau movements to reproductions of early 1700's mouldings or colonial homes.

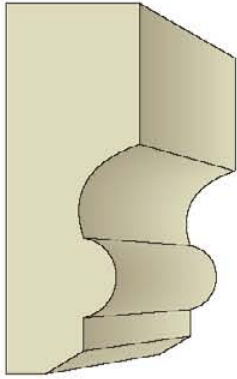

Tanex makes a wide variety of classic architectural mouldings and millwork. Specializing in custom mouldings since 1984, we have contributed to the restoration and renovation of many historic homes.

If you don't know where you've been how do you know where you're going.

Architectural influences are from the people, their cultures and the economy. Since the discovery of the British Columbia coast in the 1700's by the Spanish, the influx of immigrants has steadily grown from people looking to better themselves. The English came searching for the Northwest Passage, the European merchants discovered the lucrative fur trade, thousands poured in from America and all other parts of the world for the gold rush. Our local landscape has risen from the invention of steam power, industrial revolution, gold rush, depression, recessions, and the World Wars. We've come a long ways.

With all the mixture and cultural influences, we have one of the most diverse architectural styles in Canada, making it one of the best places to live. People who have visited have always come back.

Today with our top class builders and artisans we've created houses that would rival any in the world. Tanex is proud to be part of some of the most beautiful houses. We also pride ourselves in the knowledge of details, and history of mouldings. Our reference library is second to none and is always open to the public. Coffee is on. Come see us and let us help you build your dreams.

*Historically correct mouldings
our specialty. We have over
1,000 profiles - If we don't have it
we can reproduce your profile.*
